13th May, 2002

To the Shareholders

Dear Sir or Madam,

**CONNECTED TRANSACTION
AND
ON-GOING CONNECTED TRANSACTION**

1. INTRODUCTION

On 9th May, 2002, the Board of Directors announced that the Company had entered into a Transfer Agreement with Huaneng Group, pursuant to which the Company agreed to acquire from Huaneng Group, for a total consideration of RMB2,050 million, a 70% interest in Shanghai Shidongkou First Power Plant, a 70% interest in Jiangsu Taicang Power Plant, a 44.16% interest in Jiangsu Huaiyin Power Plant and all of the assets and liabilities of Zhejiang Changxing Power Plant. The Acquisition is expected to be funded by the Company's internal cash reserves.

LETTER FROM THE BOARD

Huaneng Group is an indirect controlling shareholder of the Company, holding a 51.98% interest in HIPDC. As of the Latest Practicable Date, HIPDC held 2,554,840,000 domestic shares in the Company, representing 42.58% of the total issued share capital (domestic shares and foreign shares) of the Company. Accordingly, the Acquisition contemplated by the Transfer Agreement constitutes a connected transaction for the Company within the meaning of the Hong Kong Listing Rules, and is subject to approval by the Independent Shareholders.

After the completion of the Acquisition, Shanghai Shidongkou First Power Plant will continue to sell power to Shanghai Municipal Power Corporation. Such transaction will constitute an On-going Connected Transaction and will be subject to the approval by the Independent Shareholders.

The Company and the Independent Directors have reviewed the Acquisition and the On-going Connected Transaction. The Company has appointed JPMorgan as the financial adviser in connection with the Acquisition. The Company has also appointed CLSA as the independent financial adviser to provide opinions to the Independent Directors in connection with the Acquisition and the On-going Connected Transaction.

The purpose of this circular is to provide you with further information in relation to the Acquisition, the Transfer Agreement and the On-going Connected Transaction, and to set out the recommendation of the Independent Directors and the Notice of the EGM.

2. TRANSFER AGREEMENT

The Transfer Agreement was approved by the Directors at the board meeting on 9th May, 2002 and signed by Huaneng Group and the Company on that day.

Date: 9th May, 2002

Parties: Seller: Huaneng Group
Purchaser: the Company

Huaneng Group Interest to be acquired:

- (i) equity interest representing 70% of the registered capital of Shanghai Shidongkou First Power Plant;
- (ii) equity interest representing 70% of the registered capital of Jiangsu Taicang Power Plant;
- (iii) equity interest representing 44.16% of the registered capital of Jiangsu Huaiyin Power Plant; and
- (iv) the entire assets and liabilities of Zhejiang Changxing Power Plant.

Consideration: The consideration for the Acquisition is RMB2,050 million payable in cash on the Closing date. The purchase price for the Acquisition was determined on the basis of normal commercial terms and arm's length negotiation between the parties thereto.

LETTER FROM THE BOARD

Conditions:

Closing is subject to the satisfaction or waiver of the following conditions:

(1) Conditions which need to be satisfied or waived by both parties:

- CLSA, the independent financial advisor to the Independent Directors, has advised the Independent Directors that the terms and conditions of the transactions contemplated under the Acquisition and the On-going Connected Transaction are fair and reasonable so far as the Independent Shareholders are concerned;
- the Independent Directors have recommended that the shareholders vote in favour of the Acquisition and the Transfer Agreement;
- the Transfer Agreement and the Acquisition have been approved and adopted by the Independent Shareholders;
- the relevant PRC government agencies have no objection to the Acquisition; and
- the Company has obtained all necessary government approvals on the Transfer Agreement and the Acquisition.

(2) Conditions which the Company may waive under the Transfer Agreement:

- representations and warranties of Huaneng Group in the Transfer Agreement are true and complete in all material respects; and
- Huaneng Group has fulfilled in all material respects its obligations under the Transfer Agreement.

(3) Conditions which Huaneng Group may waive under the Transfer Agreement:

- representations and warranties of the Company in the Transfer Agreement are true and complete in all material respects; and
- the Company has fulfilled in all material respects its obligations under the Transfer Agreement.

Completion:

Closing shall take place on the day agreed upon by both parties, within 30 days after the conditions have been satisfied or waived.

LETTER FROM THE BOARD

3. REASONS FOR THE ACQUISITION AND PRICING CONSIDERATIONS

The Company places equal emphasis on acquiring existing power plants and developing new plants to achieve its business and development strategy. Capturing a greater market share in the regions with high economic growth and increasing demand for power will enable the Company to continue its earnings growth. The Acquisition will not only increase the Company's market share in Eastern China, a region with high economic growth and strong demand for power, but also enable the Company to enter Zhejiang Province, the fastest growing market for power in the PRC. This Acquisition will further enhance the Company's position as the leading independent power producer in the PRC, which is consistent with the Company's long-term development strategy.

After the completion of the Acquisition, the Company will gain 2,450 MW of additional installed capacity under its management and thus the total installed capacity under its management will increase from 11,050 MW to 13,500 MW, representing an increase of 22.2%. The Company will gain 1,686.6 MW of additional net installed capacity, and thus its total net installed capacity will increase from 10,813.5 MW to 12,500 MW, representing an increase of 15.6%. The Company's net installed capacity in Shanghai Municipality and Jiangsu Province will increase from 1,200 MW and 2,000 MW to 2,040 MW and 2,597 MW, respectively.

All generation units of the Power Plants under the Acquisition are coal-fired units made in the PRC. The average availability factor of the Power Plants in 2001 was 93.4%, slightly higher than the Company's level of 92.2% in 2001. The actual utilization hours in 2001 were 6,068 hours for Shanghai Shidongkou First Power Plant, 5,781 hours for Jiangsu Taicang Power Plant, 5,183 hours for Jiangsu Huaiyin Power Plant and 7,133 hours for Zhejiang Changxing Power Plant, which were higher than the Company's average actual utilization hours of 5,166 hours in 2001. The total on-grid output of the Power Plants in 2001 reached approximately 13.7 billion kWh, out of which the Huaneng Group Interest accounted for approximately 9.6 billion kWh, equal to 17.7% of the 54.1 billion kWh total on-grid output of the Company in 2001.

The Acquisition price has been determined through arm's length negotiations between the two parties and their respective financial advisors, taking into account various factors, including the market environments, the technical and operating conditions of the Power Plants, the Power Plants' earnings potentials and their abilities to generate cash flow. The Company has also considered the appraisal report provided by Zhonghua which values the acquired interests at RMB2,040 million as of 31st December, 2001 using the income approach. The Acquisition price represents 8.4 times of 2001 earnings attributed to the Huaneng Group Interest and implies 4.4 times firm value/2001 EBITDA. In 2001, the total net profit of the Power Plants was approximately RMB360 million, of which RMB244 million would be attributable to the acquired interests. If the Acquisition had taken place on 1st January, 2001 and the Acquisition price had been paid with the Company's cash on-hand, the pro-forma net income of the Company in 2001 would have increased by RMB136 million, or 3.8%. The Company believes that with the growth of the power markets in which the Power Plants operate and through further strengthening management, the Acquisition will bring satisfactory returns to the Company.

The board of Directors believes that the Acquisition price and terms are fair and reasonable to the Company and its shareholders. This transaction is consistent with the Company's long-term business strategy and will benefit the Company and its shareholders.

LETTER FROM THE BOARD

4. INFORMATION REGARDING THE POWER PLANTS

(1) Overview of the provinces and municipality where the Power Plants are located

The Power Plants are located in the affluent East China Region. The East China Power Grid is one of the largest inter-provincial grids in the PRC in terms of installed capacity. By the end of 2000, the installed capacity of the three provinces and one municipality in East China Region (Jiangsu Province, Zhejiang Province, Anhui Province and Shanghai Municipality) reached approximately 56,663 MW. In 2000, the power consumption of these three provinces and one municipality reached approximately 260.8 billion kWh, representing an increase of 14.7% over that in 1999. A summary of the power market conditions in the two provinces and one municipality where the Power Plants are located is as follows:

Shanghai Municipality

Shanghai Municipality holds the leading position in China's industrial, business and financial services sectors. The development of the Pudong Development Area during the past ten years has further strengthened Shanghai's leading position in the Yangtse River delta. In 2000, Shanghai had a population of approximately 16.74 million. In 2001, Shanghai's GDP reached RMB495.1 billion and the average annual GDP growth rate over the past ten years has exceeded 10%.

By the end of 2000, the installed capacity in Shanghai Municipality reached approximately 10,604 MW. In 2000, the power consumption of Shanghai Municipality reached approximately 55.94 billion kWh, representing an increase of 11.6% over that in 1999.

Jiangsu Province

Jiangsu Province is one of the most affluent provinces in the PRC. By the end of 2000, Jiangsu Province had a population of approximately 74.38 million in an area of 102,600 sq.km., and it is the most densely populated province in the PRC. In 2001, Jiangsu Province's GDP reached RMB951.5 billion and it has achieved one of the highest annual GDP growth rates in the PRC over the past ten years.

By the end of year 2000, the installed capacity in Jiangsu Province reached approximately 19,252 MW. In 2000, the power consumption in Jiangsu Province reached approximately 97.13 billion kWh, representing an increase of 14.6% over that in 1999.

Zhejiang Province

Zhejiang Province is also one of the most affluent provinces in the PRC. By the end of 2000, Zhejiang Province had a population of approximately 46.77 million in an area of 101,800 sq.km. In 2001, Zhejiang Province's GDP reached RMB670 billion and it has achieved one of the highest GDP growth rates in the PRC over the past ten years.

By the end of 2000, the installed capacity in Zhejiang Province reached approximately 18,084 MW. In 2000, the power consumption in Zhejiang Province reached approximately 73.81 billion kWh, representing an increase of 20.7% over that in 1999.

LETTER FROM THE BOARD

(2) Description of the Power Plants

(The power rates mentioned below do not include value-added tax)

Shanghai Shidongkou First Power Plant

Shanghai Shidongkou First Power Plant was constructed in the 1980's and is located in the northern region of the Shanghai Power Grid. The plant comprises 4 X 300 MW PRC-built coal-fired generation units, which commenced operation in February, 1988, December, 1988, September, 1989 and May, 1990 respectively, and has a total installed capacity of 1,200 MW.

Upon Closing, the Company will hold a 70% interest in Shanghai Shidongkou First Power Plant while Shanghai Municipal Power Corporation will continue to hold a 30% interest.

The following table sets out certain operating data of Shanghai Shidongkou First Power Plant for 2000 and 2001:

	2000	2001
Actual generation (million kWh)	7,172.9	7,282.0
Total power sales (million kWh)	6,756.1	6,851.1
Availability factor (%)*	80.7%	92.3%
Capacity factor (%)	68.1%	69.3%
Coal consumption rate for power sold (grams/kWh)	356	358
Weighted average on-grid power rate (RMB/MWh)	225	224
Average standard coal price (RMB/tonne)	290	296

* The relatively low availability factor in 2000 was due to scheduled shutdown of Unit No.3 for upgrade.

The coal supply for Shanghai Shidongkou First Power Plant is primarily from Shanxi Province, Anhui Province and Henan Province. Electricity generated by Shanghai Shidongkou First Power Plant is transmitted to the East China Power Grid through 220 kV and 500 kV transmission lines.

In 2001, the internal consumption rate of Shanghai Shidongkou First Power Plant was 5.9%. In 2001, the total on-grid output of Shanghai Shidongkou First Power Plant reached approximately 6.851 billion kWh, of which approximately 79% represented planned on-grid output, 12% represented output sold through competitive bidding and 9% represented excess output.

Shanghai Shidongkou First Power Plant entered into a power purchase agreement with Shanghai Municipal Power Corporation, pursuant to which the on-grid power rate for annual planned output includes, in principle, operating cost, repayment of principal and payment of interest on debt, reasonable profit and income tax. The power rate is first calculated by Shanghai Shidongkou First Power Plant, and upon agreement with Shanghai Municipal Power Corporation, such rate is submitted to the local pricing bureau for approval, and is implemented upon such approval. Shanghai Shidongkou First Power Plant also sells a portion of its output to Shanghai Municipal Power Corporation through competitive bidding.

LETTER FROM THE BOARD

In 2001, the power rate implemented by Shanghai Shidongkou First Power Plant for planned output was RMB224.80/MWh, the annual average power rate for output sold through competitive bidding was RMB268.09/MWh, and the annual average power rate for excess power generated was RMB154.50/MWh.

Jiangsu Taicang Power Plant

Jiangsu Taicang Power Plant was constructed in the late 1990's. It is located in the vicinity of Suzhou, Wuxi and Changzhou, which is the most affluent area in Jiangsu Province. Jiangsu Taicang Power Plant is an ancillary facility of the China-Singapore Suzhou Industrial Park and has a total planned capacity of 1,200 MW. Jiangsu Taicang Power Plant comprises 2 X 300 MW PRC-built coal-fired generation units, which commenced operation in December, 1999 and April, 2000 respectively.

Upon Closing, the Company will hold 70% interest in Jiangsu Taicang Power Plant. Other owners of Jiangsu Taicang Power Plant are Suzhou Industrial Park Company Limited, China-Singapore Suzhou Industrial Park Development Company, Jiangsu Power Corporation, Jiangsu International Trust and Investment Company and Taicang Energy Development Company, which are holding 10%, 6%, 5%, 5% and 4% interest, respectively.

The following table sets out certain operating data of Jiangsu Taicang Power Plant for 2000 and 2001:

	2000	2001
Actual generation (million kWh)	2,166.7	3,468.3
Total power sales (million kWh)	2,053.0	3,302.3
Availability factor (%)*	—	96.8%
Capacity factor (%)*	—	66.0%
Coal consumption rate for power sold (grams/kWh)	350	338
Weighted average on-grid power rate (MWh)	285	287
Average standard coal price (RMB/tonne)	278	299

* Unit No. 2 did not commence commercial operation until the end of April, 2000.

The coal supply for Jiangsu Taicang Power Plant is primarily from Shenhua in Inner Mongolia and Datong in Shanxi Province. Electricity generated by Jiangsu Taicang Power Plant is transmitted to the East China Power Grid through 220 kV transmission lines.

In 2001, the internal consumption rate of Jiangsu Taicang Power Plant was 4.8%. In 2001, the total on-grid output of Jiangsu Taicang Power Plant reached approximately 3.302 billion kWh, of which approximately 79% represented planned on-grid output, 17% represented output sold through competitive bidding, and 4% represented excess output.

Jiangsu Taicang Power Plant entered into a power purchase agreement with Jiangsu Provincial Power Company, pursuant to which the annual on-grid power rate includes, in principle, the operating cost, repayment of principal and payment of interests on debt, reasonable profit and income tax. The power rate is first calculated by Jiangsu Taicang Power Plant, and

LETTER FROM THE BOARD

upon agreement with Jiangsu Provincial Power Company, such rate is submitted to the local pricing bureau for review and approval and is implemented upon the approval. Jiangsu Taicang Power Plant also sells a portion of its output to Jiangsu Provincial Power Company through competitive bidding.

In 2001, Jiangsu Taicang Power Plant's annual weighted average power rate for planned output was RMB321.94/MW, its annual average power rate for the output sold through competitive bidding was RMB159.76/MWh and its annual average power rate for excess output was RMB163.13/MWh.

Jiangsu Huaiyin Power Plant

Jiangsu Huaiyin Power Plant was constructed in the early 1990's. It is located in the center of the northern Jiangsu power grid. The plant's 2 X 200MW PRC-built coal-fired generation units commenced operation in November, 1993 and August, 1994 respectively. In order to reduce energy consumption and increase capacity, one generation unit of Jiangsu Huaiyin Power Plant was upgraded in October 2001, which increased the maximum generation capacity of that unit to 220 MW. In 2002, upgrading of the second generation unit will also be completed, and by then the actual generation capacity of Jiangsu Huaiyin Power Plant will reach 440 MW.

Upon Closing, the Company will hold a 44.16% interest in Jiangsu Huaiyin Power Plant, and the plant will become an associated company of the Company. Other owners of Jiangsu Huaiyin Power Plant are Jiangsu Yueda Joint Stock Limited Company, Huaiyin Investment Company and Jiangsu Power Development Joint Stock Limited Company, which are holding 26.36%, 19.48% and 10% interest, respectively.

The following table sets out certain operating data of Jiangsu Huaiyin Power Plant for 2000 and 2001:

	2000	2001
Actual generation (million kWh)	1,966.4	2,085.0
Total power sales (million kWh)	1,812.3	1,917.0
Availability factor (%)	87.0%	88.4%
Capacity factor (%)	56.1%	59.2%
Coal consumption rate for power sold (grams/kWh)	372	369
Weighted average on-grid power rate (RMB/MWh)	288	281
Average standard coal price (RMB/tonne)	290	299

The coal supply for the Jiangsu Huaiyin Power Plant is primarily from Anhui Province, Shanxi Province, Henan Province and Shaanxi Province. Electricity generated by Jiangsu Power Plant is transmitted to the Jiangsu Power Grid through 110 kV and 220 kV transmission lines.

In 2001, the internal consumption rate of Jiangsu Huaiyin Power Plant was 8.1%. In 2001, the annual on-grid output of Jiangsu Huaiyin Power Plant reached approximately 1.917 billion kWh, of which approximately 86% represented the planned output, 10% represented the output sold through competitive bidding, and 4% represented the excess output.

LETTER FROM THE BOARD

Jiangsu Huaiyin Power Plant sells its output to Jiangsu Provincial Power Company through a power purchase agreement and through competitive bidding. Pursuant to the power purchase agreement, Jiangsu Provincial Power Company undertook to purchase 1.656 billion kWh from Jiangsu Huaiyin Power Plant, at RMB312.48/MWh from January to March 2001, and at RMB295.38/MWh from April to December 2001. In 2001, the annual average power rates for output sold through competitive bidding and for excess output of Jiangsu Huaiyin Power Plant were RMB164.21/MWh and RMB163.13/MWh, respectively.

Zhejiang Changxing Power Plant

Zhejiang Changxing Power Plant was constructed in the early 1990's. It is located at the intersection of Zhejiang Province, Jiangsu Province and Anhui Province. Zhejiang Changxing Power Plant is a key power plant in northern Zhejiang area. It has 2 X 125 MW PRC-built coal-fired generation units which commenced operation in January 1992 and August 1992, respectively.

Upon Closing, Zhejiang Changxing Power Plant will be wholly owned by the Company.

The following table sets out certain operating data of Zhejiang Changxing Power Plant for 2000 and 2001:

	2000	2001
Actual generation (million kWh)	1,734.5	1,783.1
Total power sales (million kWh)	1,609.9	1,650.1
Availability factor (%)	91.8%	93.4%
Capacity factor (%)	79.6%	81.4%
Coal consumption rate for power sold (grams/kWh)	371	370
Weighted average on-grid power rate (RMB/MWh)	273	273
Average standard coal price (RMB/tonne)	356	368

The coal supply for Zhejiang Changxing Power Plant is primarily from Jungar in Inner Mongolia and Xuzhou in Jiangsu Province. Electricity generated by Zhejiang Changxing Power Plant is transmitted to the Zhejiang Power Grid through 110 kV and 220 kV transmission lines.

In 2001, the internal consumption rate of Zhejiang Changxing Power Plant was 7.5%. In 2001, the annual on-grid output of Zhejiang Changxing Power Plant reached approximately 1.65 billion kWh, of which approximately 67% represented the planned output, 17% represented additional output and 16% represented excess output.

At present, all on-grid output of Zhejiang Changxing Power Plant is sold to Zhejiang Power Corporation. The on-grid power rate are approved by the relevant pricing bureau. In 2001, the power rate for planned output was RMB310.26/MWh for generation less than 1.2 billion kWh, RMB179.49/MWh for generation between 1.2 billion kWh and 1.5 billion kWh, and RMB217.95/MWh for generation greater than 1.5 billion kWh.

Applicable tax rate	33%	33%	33%	33%
Net profit:	130.4	169.0	48.1	12.9
Huaneng Group's interest	70%	70%	44.16%	100%

The net income stated above reflects non-operating income (expenses) including a RMB14.93 million loss from fixed assets disposal by Jiangsu Huaiyin Power Plant, a RMB0.45 million loss from fixed asset disposal and a RMB9.61 million loss from sale of staff quarters by Zhejiang Changxing Power Plant.

The audited financial statements of the Power Plants have been prepared based on the applicable accounting standards and regulations in the PRC ("PRC GAAP"), which differs in certain material respects from International Financial Reporting Standards ("IAS"). The Directors estimate that the significant unaudited IAS adjustments to the income statement would include the following:

- (a) Under PRC GAAP, the operating costs and interest expenses incurred during the six-month trial production period were capitalized as part of the construction costs of the generators constructed in previous years. Depreciation was provided starting from the month following the completion of the trial production period. Under IAS, depreciation should be provided when the generators were ready for use (i.e. upon completion) and all expenses incurred (including interest expenses) should be charged to the income statement thereafter. For the year ended 31st December, 2001, depreciation expense charged to the income statement under IAS was lower than that charged under PRC GAAP.

LETTER FROM THE BOARD

- (b) The Power Plants have sold staff quarters to its employees at preferential prices. The cost of such housing benefits represented the difference between the net book value of the staff quarters sold and the proceeds collected from the employees. Under PRC GAAP, in accordance with the relevant regulations issued by the Ministry of Finance, costs relating to a housing benefits scheme approved by the government before 6th September, 2000 were charged to opening retained earnings as of 1st January, 2001, while those approved after 6th September, 2000 were charged to non-operating expenses as incurred. Under IAS, the costs are recognised on a straight-line basis over the estimated remaining average service life of the employees. Under PRC GAAP, a substantial portion of the cost of housing benefits were charged to opening retained earnings as of 1st January, 2001, whereas under IAS such costs were amortised in 2001. Accordingly, for the year ended 31st December, 2001, the cost of housing benefits charged to the income statement under IAS was higher than that charged under PRC GAAP.
- (c) Under PRC GAAP, the impact of deferred taxation is not recorded. Under IAS, deferred taxation is provided, using the liability method, on all significant timing differences. For the year ended 31st December, 2001, taxation charged to the income statement under IAS was more than that charged under PRC GAAP.

Reconciliation between PRC GAAP and IAS (ended 31st December, 2001):

	Shanghai Shidongkou First Power Plant	Jiangsu Taicang Power Plant	Jiangsu Huaiyin Power Plant	Zhejiang Changxing Power Plant	Total
	(RMB in millions)				
Net profit under PRC GAAP	130.4	169.0	48.1	12.9	360.4
(a) Depreciation charges	36.1	—	4.4	1.3	41.8
(b) Housing benefits	(0.6)	(5.4)	(3.1)	(10.3)	(19.4)
(c) Deferred tax charges	(0.4)	(4.2)	(0.1)	(0.1)	(4.8)
(d) Others	—	—	0.3	—	0.3
Net profit under IAS	<u>165.5</u>	<u>159.4</u>	<u>49.6</u>	<u>3.8</u>	<u>378.3</u>

Taking into consideration the major IAS adjustments, the unaudited net profit after taxation under IAS of Shanghai Shidongkou First Power Plant, Jiangsu Taicang Power Plant, Jiangsu Huaiyin Power Plant and Zhejiang Changxing Power Plant for the year ended 31st December, 2001 were estimated to be approximately RMB165.5 million, RMB159.4 million, RMB49.6 million and RMB3.8 million, respectively. The aggregate amount of the unaudited net profit after taxation under IAS of the Power Plants for the year ended 31st December, 2001 was estimated to be approximately RMB378.3 million, representing approximately 5% increase in the aggregate amount of net profit after taxation under PRC GAAP.

LETTER FROM THE BOARD

6. ON-GOING CONNECTED TRANSACTION

Upon Closing, Shanghai Shidongkou First Power Plant, being a subsidiary of the Company, will continue to sell power to Shanghai Municipal Power Corporation, which under the Hong Kong Listing Rules is a connected person to the Company due to its 30% ownership of Shanghai Shidongkou First Power Plant. Such transaction will constitute an on-going connected transaction for the Company under the Hong Kong Listing Rules.

Connected Transaction with Shanghai Municipal Power Corporation*Power Purchase Agreement*

Shanghai Shidongkou First Power Plant proposes to enter into a power purchase agreement with Shanghai Municipal Power Corporation, pursuant to which Shanghai Shidongkou First Power Plant will sell 5.58 billion KWh to Shanghai Municipal Power Corporation in 2002 at the price as approved by the relevant pricing bureau and subject to changes of the relevant PRC government regulations. According to the PRC market practice, the power producer and the power purchaser will renew the agreement annually in the first half of each year while the purchase is continued to be carried out since the beginning of the year.

For the two financial years ended 31st December, 2000 and 2001, Shanghai Shidongkou First Power Plant sold to Shanghai Municipal Power Corporation electricity in the amounts of RMB1,520,995,744 and RMB1,531,374,202 respectively, both representing 100% of the annual total sale of power of Shanghai Shidongkou First Power Plant.

Shanghai Municipal Power Corporation currently holds a 30% equity interest in Shanghai Shidongkou First Power Plant. Upon Closing, Shanghai Shidongkou First Power Plant will become a subsidiary of the Company, with 70% equity interest owned by the Company, and Shanghai Municipal Power Corporation will then become a connected person to the Company.

Shanghai Municipal Power Corporation is the sole operator of Shanghai Power Grid. According to the existing structure of sale of power, Shanghai Shidongkou First Power Plant is required to sell all of its output to Shanghai Municipal Power Corporation. As of the Latest Practicable Date, Shanghai Municipal Power Corporation had not held any shares in the Company.

Director's opinion on On-going Connected Transaction

The Directors consider that the On-going Connected Transaction is and will be carried out in the Company's ordinary course of business, on normal commercial terms and is fair and reasonable to the shareholders of the Company. The Directors believe that the continuation of the On-going Connected Transaction is necessary and beneficial to the Company.

LETTER FROM THE BOARD

Waiver to be sought

As the Directors consider that it would be impracticable for the Company to comply strictly with the connected transactions requirements of the Hong Kong Listing Rules on each occasion when the On-going Connected Transaction arises, the Company has applied to the Hong Kong Stock Exchange for a waiver of the On-going Connected Transaction from strict compliance with such requirements for a period of three years up to 31st December, 2004, subject to the following conditions:

- (a) the On-going Connected Transaction will be (i) in the ordinary and usual course of business of the Company; and (ii) either on normal commercial terms, or on terms no less favourable than those available to (or from) independent third parties; or (iii) where there is no available comparison for the purpose of determining whether (i) or (ii) is satisfied, on terms that are fair and reasonable so far as the shareholders of the Company are concerned;
- (b) the aggregate value of the On-going Connected Transaction per annum will not exceed the limits set out below:

	Cap (RMB million)		
	2002	2003	2004
Connected Transaction with			
Shanghai Municipal Power Corporation			
Power Purchase Agreement	1,700	1,700	1,700

- (c) details of the On-going Connected Transaction as required by Rule 14.25(1)(A) to (D) of the Hong Kong Listing Rules to be disclosed in the Company's next and subsequent published annual reports;
- (d) the Independent Directors shall review annually the On-going Connected Transaction and confirm in the Company's annual report that the On-going Connected Transaction has been conducted in the manner stated in conditions (a) and (b) above; and
- (e) the auditors of the Company shall review annually the On-going Connected Transaction, and confirm to the board of Directors in writing that the On-going Connected Transaction:
 - (i) received the approval of the Directors;
 - (ii) has been entered into at price levels consistent with the pricing policies as stated in the relevant agreements;
 - (iii) has been entered into in accordance with the terms of the agreement governing the On-going Connected Transaction; and
 - (iv) has not exceeded the caps as set out in condition (b) above.

LETTER FROM THE BOARD

7. CONNECTED TRANSACTIONS UNDER SHANGHAI LISTING RULES

As the domestic public shares of the Company are listed on the Shanghai Stock Exchange, the Company is required, in addition to the Hong Kong Listing Rules, to comply with the Shanghai Listing Rules.

After the completion of the Acquisition, certain transactions by the Power Plants with certain persons will constitute connected transactions under the Shanghai Listing Rules ("Shanghai Connected Transactions"), which shall be subject to the approval of the Company shareholders. The connected persons (as defined under the Shanghai Listing Rules) shall abstain from voting on resolutions related to Shanghai Connected Transactions. Details of the Shanghai Connected Transactions are set out in the Notice of EGM as published and sent to the shareholders on 10th May, 2002.

In accordance with Rule 7.3.11(9) of the Shanghai Listing Rules, the Company has appointed Beijing H&J Vanguard Consulting Limited (北京和君創業諮詢有限公司) ("Hejun") as the PRC independent financial advisor in respect of the Acquisition and Shanghai Connected Transactions.

Upon careful and necessary enquiry, Hejun is of the view that the Acquisition and Shanghai Connected Transaction have met the relevant legal requirements under the Company Law of the PRC, the Securities Law of the PRC and the Shanghai Listing Rules (as amended in 2001) and the requirements of the articles of association of the Company. Hejun is of the view that the relevant legal procedures and disclosure requirements have been followed and met, reflecting the principles of equality, justice and reasonableness; and the Acquisition and the Shanghai Connected Transactions will not in any way affect the interests of either the Company or the non-connected shareholders.

The Independent Directors are of the view that (1) the board of Directors has met the relevant requirements of Shanghai Listing Rules and the articles of association of the Company regarding approval of the relevant resolutions of the Acquisition and the Shanghai Connected Transactions; and (2) the Acquisition and the Shanghai Connected Transactions arising therefrom are fair to the Company's shareholders.

8. THE EGM

The Company will convene an EGM at 9:00 a.m. on 24th June, 2002 at Beijing International Convention Centre at No. 8 Beichen East Road, Chaoyang District, Beijing, PRC to seek the approval by the Independent Shareholders of the Acquisition (including the Transfer Agreement), the On-going Connected Transactions and Shanghai Connected Transactions. Huaneng Group and its Associates will abstain from voting in the EGM in respect of the ordinary resolution to approve the Acquisition (including the Transfer Agreement). Shanghai Municipal Power Corporation and its Associates will abstain from voting in respect of the ordinary resolution to approve the On-going Connected Transaction in case they hold shares in the Company. (As at the date hereof, Shanghai Municipal Power Corporation does not hold any shares in the Company). Notice of the EGM is set out on pages 30 to 34 in this circular.

A reply slip and a form of proxy for use by the Independent Shareholders at the Extraordinary General Meeting is enclosed with this circular. Whether or not you intend to attend the meeting in person, you are requested to complete and return the reply slip in accordance with the instructions printed thereon to the registered office of the Company at West Wing, Building C, Tianyin Mansion, 2C, Fuxingmennan Street, Xichang District, Beijing, PRC as soon as possible but in any event by 4th

LETTER FROM THE BOARD

June, 2002. The enclosed form of proxy should be completed and returned to the Company's H Share Registrar, Hong Kong Registrars Limited, at 2nd Floor, Vicwood Plaza, 199 Des Voeux Road Central, Hong Kong or the registered office of the Company in accordance with the instructions printed thereon as soon as practicable and in any event by not later than 24 hours before the time appointed for the holding of the EGM. Completion and return of the form of proxy will not preclude you from attending and voting in person at the meeting should you so wish.

9. RECOMMENDATION

According to the requirements of the Hong Kong Listing Rules, the Independent Directors will advise the Independent Shareholders in connection with the Acquisition (including the Transfer Agreement) and the On-going Connected Transaction. CLSA has been appointed as an independent financial adviser to advise the Independent Directors with respect to the fairness and reasonableness of the Acquisition (including the Transfer Agreement) and the On-going Connected Transaction.

The Independent Directors, having taken into account the advice of CLSA, consider the terms of the Transfer Agreement and the On-going Connected Transaction to be fair and reasonable insofar as the Independent Shareholders are concerned and consider the transaction contemplated by the Transfer Agreement and the On-going Connected Transaction to be in the interests of the Company and its shareholders. Accordingly, the Independent Directors recommend that the Independent Shareholders vote in favour of the resolutions to approve the Acquisition, the Transfer Agreement and the On-going Connected Transaction at the Extraordinary General Meeting.

The Independent Directors also recommend that the non-connected persons under the Shanghai Listing Rules vote in favour of the resolutions to approve the Shanghai Connected Transactions at the Extraordinary General Meeting.

10. OTHER INFORMATION

Your attention is also drawn to the letter from the Independent Directors and the letter from CLSA, which sets out its advice to the Independent Directors, and the additional information set out in the appendices of this circular.

Yours faithfully,
For and on behalf of
Huaneng Power International, Inc.

To the Independent Shareholders

Dear Sir or Madam,

**CONNECTED TRANSACTION
AND
ON-GOING CONNECTED TRANSACTION**

We, the Independent Directors of Huaneng Power International, Inc., are advising the Independent Shareholders in connection with the Acquisition and On-going Connected Transaction, details of which are set out in the letter from the Board contained in the circular ("Circular") of the Company to the Shareholders dated 13th May, 2002, of which this letter forms a part. Terms defined in the Circular shall have the same meanings when used herein unless the context otherwise requires.

Under the Hong Kong Listing Rules, the Acquisition, the Transfer Agreement and the On-going Connected Transaction constitute connected transactions for the Company. Accordingly, the Acquisition, the Transfer Agreement and the On-going Connected Transaction will require the approval of the Independent Shareholders at the Extraordinary General Meeting.

We wish to draw your attention to the letter of advice from CLSA set out on pages 20 to 27 of the Circular. We have discussed the letter and the opinion contained in it with CLSA.

We are also advising the non-connected shareholders in connection with the Shanghai Connected Transactions (as defined in the Circular). We have considered the opinion of Beijing H&J Vanguard Consulting Limited ("Hejun") with respect to the Shanghai Connected Transactions.

LETTER FROM THE INDEPENDENT DIRECTORS

Having considered, inter alia, the factors and reasons considered by, and the opinion of, CLSA, as stated in its aforementioned letter, we consider the Acquisition, the Transfer Agreement and the On-going Connected Transaction to be fair and reasonable so far as the Independent Shareholders are concerned. Having considered the opinion of Hejun, we consider the Shanghai Connected Transactions to be fair and reasonable so far as the non-connected shareholders under the Shanghai Listing Rules are concerned. Accordingly, we recommend that the Independent Shareholders and the non-connected shareholders under the Shanghai Listing Rules vote in favour of the ordinary resolutions in the Notice of Extraordinary General Meeting set out at the end of the Circular to be proposed at the Extraordinary General Meeting to be held on 24th June, 2002 and thereby approve the Acquisition, the Transfer Agreement, the On-going Connected Transaction and the Shanghai Connected Transactions.

Yours faithfully,

13th May, 2002

*To the Independent Directors of
Huaneng Power International, Inc.*

Dear Sirs,

**CONNECTED TRANSACTION
AND
ON-GOING CONNECTED TRANSACTION**

We refer to our engagement under which CLSA Equity Capital Markets Limited ("CLSA") has been appointed to advise the Independent Directors in connection with the terms of the Acquisition and the On-going Connected Transaction. Pursuant to the Listing Rules, the Acquisition constitutes a connected transaction for the Company and is subject to the approval of the Independent Shareholders at a general meeting. Details of the Acquisition are set out in the letter from the Board included in the circular dated 13th May, 2002 (the "Circular") issued by the Company to its shareholders ("Shareholders" and individually each a "Shareholder"). Upon Completion of the Acquisition, Shanghai Shidongkou First Power Plant will continue to sell power to Shanghai Municipal Power Corporation and such transaction will constitute an On-going Connected Transaction and will be subject to approval by the Independent Shareholders. This letter has been prepared for inclusion in the Circular and terms used in this letter have the same meanings as defined in the Circular unless the context otherwise requires.

In our capacity as independent financial adviser to the Independent Directors, our role is to give an independent opinion as to whether the terms of the Acquisition and the On-going Connected Transaction are fair and reasonable insofar as the Independent Shareholders are concerned. Our opinion letter to the Independent Directors has been prepared and delivered in accordance with the requirements of the Listing Rules for the purposes of assisting the Independent Directors in their duties to evaluate the terms of the Acquisition and the On-going Connected Transaction and for no other reason and does not constitute a recommendation to any Shareholder as to how such Shareholder should vote on the Acquisition and the On-going Connected Transaction. The assumptions made and the analysis conducted in our letter were undertaken in accordance with the customs and practices employed in similar transactions in Hong Kong.

For the avoidance of any doubt, we are not engaged to advise the Independent Directors in respect of the Shanghai Connected Transaction, details of which are set out in the letter from the Board. The opinion of the Independent Directors in respect thereof and the basis of their opinion are set out in the letter from the Independent Directors contained in the Circular.

In formulating our opinion, we have relied on the information, opinions and facts supplied, and representations made to us, by the Directors and representatives of the Company (including those contained or referred to in the Circular) and have assumed that all such information, opinions, facts and representations, which have been provided by the Directors and such representatives, and for

which they are wholly responsible, are true and accurate in all respects. We have also relied on certain information available to the public and we have assumed such information to be accurate and reliable, and we have not independently verified the accuracy of such information. Further, we have relied on the representations of the Directors that they have made all reasonable inquiries, and to the best of their knowledge and belief, that there are no other facts, the omission of which would make any statement contained in the Circular untrue or misleading. We have also assumed that statements and representations made or referred to in the Circular were accurate at the time they were made and continue to be accurate at the date of despatch of the Circular.

We consider that we have reviewed sufficient information to enable us to reach an informed view and to justify relying on the accuracy of the information provided in the Circular as well as to provide a reasonable basis for our advice. We have not, however, made any independent evaluation or appraisal of, nor have we conducted any form of independent investigation into, the business affairs or assets and liabilities of the Power Plants or the Company. Additionally, we did not conduct any physical inspection of the properties or facilities of the Power Plants or the Company. It is not within our terms of reference to comment on the commercial feasibility of the Acquisition and the On-going Connected Transaction, which remains the responsibility of the Directors. As the independent financial adviser to the Independent Directors, we have not been involved in the negotiations in respect of the terms of the Acquisition and the On-going Connected Transaction. Our opinion with regard to the terms thereof has been made on the assumption that all obligations to be performed by each of the parties to the Acquisition and the On-going Connected Transaction will be fully performed in accordance with the terms thereof.

Our opinion is necessarily based upon market, economic and other conditions as they existed and could be evaluated on, and on the information publicly available to us as of the date of the opinion. We have no obligation to update this opinion to take into account events occurring after the date that this opinion is delivered to the Independent Directors. As a result, circumstances could develop prior to completion of the Acquisition and the taking effect of the On-going Connected Transaction that, if known at the time we rendered our opinion, would have altered our opinion.

CLSA is a registered investment adviser under the Securities Ordinance (Chapter 333 of the laws of Hong Kong) and together with its affiliates provide a full range of investment banking and broking services, which, in the course of normal trading activities, may from time to time effect transactions and hold securities, including derivative securities, of the Company for our own account and the accounts of customers. We will receive a fee from the Company for rendering this opinion. The Company has also agreed to indemnify CLSA and certain related persons against certain liabilities and expenses in connection with this engagement.

PRINCIPAL FACTORS AND REASONS CONSIDERED**ACQUISITION**

In arriving at our opinion with regard to the terms of the Acquisition, we have considered the principal factors and reasons set out below. None of these factors or reasons considered by us was assigned a greater significance than any other. We did not form a conclusion as to whether any individual factor or reason, considered in isolation, supported or failed to support our opinion, although we are not aware of any matter which would have rendered our opinion differently by the results of our analyses of any such individual factors or reasons. Rather, in reaching our conclusion, we have considered the results of the analyses in light of each other and ultimately reached our opinion based on the results of all analyses taken as a whole.

LETTER FROM CLSA EQUITY CAPITAL MARKETS LIMITED

1. The Transfer Agreement

On 9th May, 2002, the Directors announced that the Company had entered into the Transfer Agreement, pursuant to which, the Company agreed to acquire from Huaneng Group its 70% interest in Shanghai Shidongkou First Power Plant, 70% interest in Jiangsu Taicang Power Plant, 44.16% interest in Jiangsu Huaiyin Power Plant and the entire assets and liabilities in Zhejiang Changxing Power Plant, for a consideration of RMB2,050 million (approximately HK\$1,926.5 million), which is payable in cash on completion of the Acquisition.

Details of the Acquisition are set out in the letter from the Board contained in the Circular.

2. Reasons for the Acquisition

The Power Plants are located in the coastal regions of Shanghai, Jiangsu and Zhejiang provinces respectively. The Directors believe that the Acquisition will enlarge the Company's market share in the fast growing East China regions. Upon completion of the Acquisition, the Company will also have established for the first time access to the Zhejiang province, which the Directors believe is among the fastest growing regions for power demand in the PRC.

As stated in the letter from the Board, on a pro-forma basis under PRC GAAP and assuming that the Acquisition had taken place on 1st January, 2001 and the purchase price had been paid in cash by internal resources, the profit of the Company in 2001 would have increased by RMB136 million, representing an increase of approximately 3.8%. Upon completion of the Acquisition, the total net installed capacity of the Company will increase from 10,813.5MW to 12,500MW, representing approximately 15.6% increase.

For further details of the reasons for the Acquisition, please refer to the letter from the Board contained in the Circular.

3. Interest to be acquired

Set out below are certain financial information of the Power Plants extracted from the audited financial statements of the Power Plants as at 31st December, 2001 prepared under PRC GAAP and after taking into account the unaudited adjustments in order to comply with IAS.

In RMB million unless stated otherwise

			Net	Book	Installed	Equity
	Location	Sales	Profit	Value of	Capacity	Interest
				Equity	(MW)	to be
						acquired
Shidongkou	Shanghai	1,532.6	165.5	312.4	1,200.0	70%
Taicang	Jiangsu	949.2	159.4	750.7	600.0	70%
Huaiyin	Jiangsu	539.1	49.6	533.7	400.0	44.16%
Changxing	Zhejiang	451.2	3.8	35.5	250.0	100%

Further details relating to the Power Plants are set out in the letter from the Board in the Circular.

LETTER FROM CLSA EQUITY CAPITAL MARKETS LIMITED

4. Funding of the Acquisition

The consideration for the Acquisition will be funded by internal resources of the Company.

As disclosed in the latest audited financial statements as at 31st December, 2001, the Company had total cash and cash equivalent resources of approximately RMB8,398 million, and its long term and short term debts were approximately RMB12,545 million, representing a net debt to equity ratio of approximately 16%. The Directors believe the Company will have sufficient resources for future working capital purposes after the Acquisition.

5. Consideration and valuation

The consideration was determined through arm's length negotiations and based on normal commercial terms between the parties thereto, after taking into account the appraisal conducted by Zhonghua, an independent appraiser qualified in the PRC.

According to the audited accounts under PRC GAAP and the unaudited adjustments to comply with IAS, the net book value of the Huaneng Group Interest as at 31st December, 2001 was RMB1,063.6 million in accordance with PRC GAAP and RMB1,015.4 million in accordance with IAS. The consideration for the acquisition of the Huaneng Group Interest of RMB2,050 million (approximately HK\$1,926.5 million) represents approximately a premium of 92.8% and 101.9% to the net book value under PRC GAAP and IAS respectively. Under PRC GAAP, the Acquisition price represents 8.4 times of 2001 earnings attributed to the Huaneng Group Interest and implies a ratio of 4.4 of firm value to 2001 EBITDA attributed to the Huaneng Group Interest. Taking into account the unaudited adjustments to comply with IAS, the Acquisition price represents 8.1 times of 2001 earnings attributed to the Huaneng Group Interest and implies an firm value to 2001 EBITDA ratio of 4.5.

In formulating our opinion, we have considered the current market multiples of various comparable and listed companies based in the PRC and other Asian countries.

Set out below are certain details of the comparable listed companies that are engaged in the power generation business.

For the purpose of comparison only, we have considered various measures including:

- the firm value to net sales ratio,
- the firm value to EBITDA ratio,
- the firm value to EBIT ratio,
- the price to earnings ratio,
- the price to book value of equity ratio,
- the price to cash flow ratio,
- the firm value per MW ratio,

based on publicly available data as at the Latest Practicable Date and the listed companies' most recently published financial information.

Because of the inherent differences between the businesses, operations and prospects of the Power Plants and the companies included in the comparable companies group, the market multiples comparison above should be used with care.

Having considered the above-mentioned principal factors (items 1 to 5), we are of the opinion that the transaction contemplated under the Acquisition are fair and reasonable so far as the Independent Shareholders are concerned.

LETTER FROM CLSA EQUITY CAPITAL MARKETS LIMITED

ON-GOING CONNECTED TRANSACTION

In arriving at our opinion with regard to the terms of the On-going Connected Transaction, we have considered the principal factors and reasons below:

Transaction arising from the Acquisition

Upon completion of the Acquisition, Shanghai Shidongkou First Power Plant, being a subsidiary of the Company, will continue to sell power to Shanghai Municipal Power Company, which under the Hong Kong Listing Rules is a connected person to the Company. Such transaction will constitute an on-going connected transaction which is subject to the approval by the Independent Shareholders.

Power Purchase Agreement with Shanghai Municipal Power Company

Shanghai Shidongkou First Power Plant proposes to enter into a power purchase agreement with Shanghai Municipal Power Corporation (the "Power Purchase Agreement"), pursuant to which Shanghai Shidongkou First Power Plant will sell 5.58 billion kWh to Shanghai Municipal Power Corporation in 2002 at the price as approved by the relevant pricing bureau and subject to changes of the relevant PRC government regulations. According to the PRC market practice, the power producer and the power purchaser will renew the agreement annually in the first half of each year while the purchase is continued to be carried out since the beginning of the year.

For the two financial years ended 31st December, 2000 and 2001, Shanghai Shidongkou First Power Plant sold electricity for an amount of approximately RMB1,521 million and RMB 1,531 million, respectively, to Shanghai Municipal Power Corporation, both representing 100% of the total annual sale of power of Shanghai Shidongkou First Power Plant.

Shanghai Municipal Power Corporation currently holds a 30% of the equity interest in Shanghai Shidongkou First Power Plant. Upon completion of the Acquisition, Shanghai Shidongkou First Power Plant will become a subsidiary of the Company, with 70% equity interest owned by the Company, and Shanghai Municipal Power Corporation will then become a connected person to the Company.

Shanghai Municipal Power Corporation is the sole operator of Shanghai Power Grid. According to the existing structure of sale of power, Shanghai Shidongkou First Power Plant is required to sell all of its output to Shanghai Municipal Power Corporation. As of the Latest Practicable Date, Shanghai Municipal Power Corporation had not held any shares in the Company.

Waiver to be sought

As the Directors consider that it would be impracticable for the Company to comply strictly with the connected transactions requirements of the Hong Kong Listing Rules on each occasion when the On-going Connected Transaction arises, the Company has applied to the Hong Kong Stock Exchange for a waiver of the On-going Connected Transaction from strict compliance with such requirements for a period of three years up to 31st December, 2004, subject to the conditions set out in the letter from the Board.

LETTER FROM CLSA EQUITY CAPITAL MARKETS LIMITED

Having reviewed the information and documents provided by the Company relating to the On-going Connected Transaction (including the matters set out in the above paragraphs including the facts that Shanghai Municipal Power Corporation is the sole operator of Shanghai Power Grid, the price for the power purchase is to be approved by the relevant pricing bureau and the conditions for the waiver application) and in reliance upon confirmation of the accuracy and completeness of such information and documents from the Directors, we are of the view that the transaction contemplated under the On-going Connected Transaction are fair and reasonable so far as the Independent Shareholders are concerned.

OPINION

Having considered the above-mentioned principal factors, we are of the opinion that the terms of the Acquisition and the On-going Connected Transaction are fair and reasonable so far as the Independent Shareholders are concerned and the transactions contemplated thereunder are in the interest of the Company as a whole.

Yours faithfully
For and on behalf of
CLSA Equity Capital Markets Limited
William Yeung
Director & Head of Corporate Finance
